Asia Wine Trophy: Elevating Standards and Expanding Horizons with Orange/Amber Wines

Complying with the stringent regulations of the OIV, Asia Wine Trophy establishes its credibility not only among participants but also with consumers. With a distinguished panel of jury members from over 20 countries, many of whom are leading experts in their fields, the competition ensures that each registered wine is evaluated with the utmost professional proficiency, whether by tasters or oenologists.

Highlighting Orange/Amber Wines

As the global demand for skin-contacted wines surges, Asia Wine Trophy has introduced a specialized category for these products in 2024. This inclusion underscores the event's commitment to evolving consumer preferences and promoting a diverse range of wines. We invite producers of orange/amber wines to seize this exceptional opportunity to gain recognition and expand their market presence. The best specialists in skin-contacted wines from Europe, America and Asia will taste the wines.
